

e2b anytime apps product overview

Industries

- Manufacturing
- Wholesale Distribution
- Business Services
- General Business

Benefits Overview

Anytime Collect

- Manage credit and collections for outstanding accounts receivable
- Manage documents and files
- Track all account communications
- Integrated with Microsoft Excel, Word, and Outlook for analysis, mail merge, and email templates

Anytime 500 distribution

- Streamline and automate procurement and material planning
- Model Cost Changes for purchased or manufactured items
- Standardize quality procedures
- Control document and file revisions

Anytime 500 manufacturing

- Control BOM and routing revisions
- Streamline labor entry and material issue procedures and data entry
- Improve manufacturing costing
- Manage work orders with Sub WOs, WO Splitting, and WO Allocations

ClientCare Plans

- Free Upgrades and Hot Fixes
- Unlimited Product Support
- Installation Assistance & Training

Plug-And-Play Business Applications Improve Credit & Collections, Document Management, and Supply Chain Activities

e2b anytime apps develops Microsoft-centric plug-and-play business applications. Products are integrated with most popular accounting and enterprise resource planning (ERP) business products. Anytime Collect easily integrates with virtually any Windows-based application. Anytime 500 and Anytime Docs are specially designed exclusively for Sage 500 ERP by Sage Software.

Anytime Collect

Anytime Collect is a suite of financial productivity solutions designed to streamline and automate business-to-business accounts receivable collections activities resulting in significant reductions in outstanding receivables, improved cash flow forecasting, and reductions in days sales outstanding. Anytime Collect is developed using Microsoft .NET technologies and is integrated with invoice, payment, sales order, and contact information from the accounting system database. It includes standard and user-defined reporting, built-in dashboards and top ten lists, account listings, email, and much more.

Anytime 500

Anytime 500 products are developed in the Sage 500 ERP Application Framework and extend Sage 500 ERP with functional improvements to inventory and manufacturing. Brand new modules are also available to manage supply, demand, operations, planning, and product costing.

Anytime 500 Distribution extends Sage 500 ERP with new capabilities to optimize product procurement, inventory, and other areas of your supply chain. Designed for distributors and manufacturers, the suite includes: Enhanced MRP/DRP; Kanban Replenishment; Sales Forecasting & MPS; Cost Modeling; Quality Management; Document Control; and Enhanced Inventory.

Anytime 500 Manufacturing includes additional features for customers using the Sage 500 ERP Light Manufacturing or Advanced Manufacturing modules. This suite includes: Engineering Change Orders; Enhanced Costing; Routing Step Copy; Progress Returns; Enhanced Labor Entry; Batch Process Production Entry; Sub Work Orders; Work Orders Splitting; and Work Order Allocations.

Other e2b anytime apps products include Anytime Docs for Sage 500 ERP, Forecast Modeling, and industry solutions for Automotive, Food & Beverage, and Rental businesses. e2b also offers a wide range of shelf modifications, extended APIs, and custom programming. Contact e2b for more information about these products and services.

Anytime 500 Product Price Sheet(User-Based Bundle Pricing)

www.e2banytime.com

Sage introduced new user-based bundled pricing for new Sage 500 ERP sales. We literally wrote the book on enhanced supply chain features for Sage 500 ERP so add our Anytime 500 Distribution Suite or Anytime 500 Manufacturing Suite to any new purchase of Sage 500 ERP to get the most out of your ERP investment.

ANYTIME 500 DISTRIBUTION BUNDLE \$695 per user

ANYTIME 500 MANUFACTURING BUNDLE \$745 per user

Ideal for both wholesale distributors and manufacturers.

- Enhanced MRP/DRP (Requires Sage MRP/IR)
- Kanban Replenishment
- Sales Forecasting & MPS
- Cost Modeling
- Quality Management
- Document Control
- Enhanced Inventory

Requires Sage Distribution Bundle

Includes Anytime 500 Distribution Bundle plus these modules designed for manufacturers.

- Engineering Change Orders
- Batch Process Production Entry
- Enhanced Labor Entry
- Enhanced Costing
- Routing Step Copy
- Sub Work Orders
- Work Order Splitting
- Work Order Allocations

Requires Sage Manufacturing Bundle

Restrictions

The user based pricing bundles are available to new customers only. Sales of Anytime 500 products to existing Sage 500 ERP customers will be based on our existing module-based pricing. New customers will have the option to choose either traditional module based pricing or the new user based pricing bundles. Like Sage, after the initial purchase, customers will remain on their chosen e2b pricing model – migrations between module based pricing and user based pricing models is not permitted.

Annual ClientCare

Anytime 500 user based pricing bundles are based on the number of purchased Sage 500 ERP users and require a minimum purchase of 5 users with an e2b ClientCare plan for maintenance and support. e2b Unlimited ClientCare is 30% of the SLP for Anytime 500 Bundle price. A new QuickStart Implementation service option is available to provide you and your customer with turnkey consulting and implementation assistance.

Monthly Subscription Pricing

The Anytime 500 Manufacturing Bundle is now available as a low monthly subscription for just \$40 per user per month (minimum of 5 users and annual subscription commitment). Contact e2b technologies for more details.
